STONY PLAIN SUN.

VOLUME NINE.

STONY PLAIN. ALBERTA. THURSDAY. JUNE 27. 1929.

Whole Number 464

Noxious Weeds--

Are unsightly in fields and gardens and along roadsides.
Rob the soil of valuable plant food.
Occupy space which should produce grain.
Reduce the grade of the threshed crop.
Cost money to thresh, haul and ship to market.
Entail heavy losses in dockage.

The first week in July has been designated as

WEED WEEK,

and a special campaign urging the eradication and control of noxious weeds will be conducted.

Watch for articles in the press and for announcements of meetings and radio addresses.

Published by a committee representing the—
Alberta Seed Growers' Association,
Alberta Advisory Weed Board,
Alberta Department of Agriculture.

NOT only is Pontiac a BIG Six, with the power which you would expect a Big Six to possess . . . but this power is always under the immediate and easy control of the driver.

Touch the accelerator and the great surge of power from Pontiac's Big dynamically-balanced Six-cylinder engine . . . developed by the famous GMR high-compression head . . . whisks you out in front of the traffic line.

Touch the brake pedal . . . and instantly Pontiac's big, internal-expanding, protected brakes bring you to a smooth, silent stop.

Take a trial ride in Pontiac and discover for yourself that Big Six quality, beauty and performance have definitely entered the low-priced field.

IT'S BETTER BECAUSE IT'S CANADIAN

July First, Stony Plain's Sports Day.

Monday next, July First, is the day Stony stages its big event of recent times—The Sports Day.

The Sports committee has completed its work on the program, which shows a very large number of prizes will be offered in the long list of sporting events which has been prepared. All kinds of diversions will be provided, to make the day doubly enjoyable.

The tug-of-war promises to be a very interesting affair, as Hans Makoola has promised to have his ten husky yokels on his end of the rope and cleats, prepared to do or dye. Hans is said to have bet the spare tire on his new car that his pullers will win the cigars—or whatever it is that goes to the ten good men and true who pull the white rag over to their side of the marker.

The other big events scheduled should not be lost sight of, including the Horseshoe contest, in which the champion from a nearby town who won the gold hoof ornaments at last year's Edmonton Ex. is an entrant.

Baseball will also draw a good crowd of fans and others who wish to see their favorite team in action. Stony's team will make an effort to efface the memory of defeat administered at Duffield picnic, and will be out to meet allcomers. Holborn, the Grove and Duffield will be among the teams in the tournament, and battling for the good prizes offered.

Walther League News.

At the Rally at Spruce Grove last Sunday a good time was enjoyed by all. The W.L. from Stony trimmed the Grove W-L 10-9 in an indoor ball game, while the country division lost a close decision to a combined Brudersheim-Edmonton team, score being 10-8. Features in first game were successive home runs by Bill Miller and W. Rosnan.

The W-L. will have charge of Refreshment booth at the Big Sports in Stony, Monday next.

This year's W-L Camp and Summer Conference will be held at Edmonton Beach, on Aug 2-10; educational, inspirational, social. Among the speakers will be Prof. Englebrecht, of the Concordia Teachers' College, River Forest, Ill., and Rev Boettcher of Edmonton.

Miller-Leneau

A happy event took place at St. Matthew Church (Manitoba Synod) on Thurs. June 20, the Rev G. Postzsch officiating, when Miss Emma Leneau, daughter of Mr and Mrs Julius Leneau, was united in marriage to Mr Andrew Miller. Both contracting parties are residents of Spruce Grove district, where the groom has conducted farming operations for several years past.

Apply the Same Principle

During recent years there has been a decidedly better understanding between the east and the west of Canada, and between the Maritime Provinces and the rest of the Dominion, based on closer acquaintance and knowledge of the problems confronting the people in each of the major sections of this far-flung country. There is today far less of sectionalism, prejudice and misunderstanding than in any previous period of Canada's history, and, happily, this spirit of goodwill and co-operation is growing more and more pronounced.

Anything and everything that will tend to promote this wider knowledge and better understanding should be done and encouraged. We believe goodwill and understanding can only be brought about and maintained by frankness and the dissemination of knowledge. That is, eastern people must be made and kept acquainted with actual facts about the west and informed as to the views, opinions and ambitions of the west, and, vice versa, western people must be informed in like manner about the east. And it is particularly the duty of the newspapers of the Dominion to discharge this patriotic duty.

It is in the performance of that duty we would draw attention to a recent editorial article appearing in "The Financial Times," Montreal, dealing with the subject of the revision of the Grain Act. To much of that article no exception can be taken, but the whole difficulty is that it is based upon an entirely wrong conception, which fact is made abundantly evident in the concluding sentence of the article, as follows: "The important consideration is to protect the buyer, which will at the same time be a safeguard on the dependable reputation of Canadian wheat in all markets."

This may be the eastern viewpoint, but we submit the western viewpoint and that is that the word "producer" should be substituted for the "buyer" in the sentence quoted.

The person entitled to receive first consideration in matters affecting the grading, mixing, transportation of wheat is the man who grows the wheat, not the man who buys it or transports it or mills it into flour. The status of Canadian wheat in the markets of the world must remain unimpaired at a high standard, not so much for the benefit of and protection of the British or foreign buyer, but in the interests of and to protect the Canadian farmer who grows the wheat in order that he may obtain full value for his product and ample reward for his labor.

Submitting the western viewpoint for the benefit of eastern people, it may well be asked of "The Financial Times," and other exponents of its dictum that in matters affecting the grain trade of Canada the important consideration "is to protect the buyer," whether it, and they, are equally prepared to accept the principle that, in all matters affecting, say the customs tariff, the important consideration is to protect, not the manufacturer of the finished product who has invested in manufacturing industry, but the great mass of consumers of Canada, the people who "buy" the products of these factories?

If it is the "buyer" of the products of the farm who are deserving of first consideration, and who above all should be protected, then pure logic must force acceptance of the principle that it is the "buyer" of the products of the factories who must likewise be given first consideration, and their interests recognized and protected first and foremost in all matters of tariff or other legislation affecting such industries.

In other words, according to the eastern view, as they would apply it to the farmer, it is not the industry that should be protected, or those who have made investments in industry and labor in it, but the buyers of the products created by such industry. The truth is, however, that when these same interests advance tariff and other arguments in their own behalf they directly reverse the principle, and resolutely contend that it is the producing manufacturers who must receive first consideration and be accorded protection, rather than the buyers, i.e. the consuming masses of the Dominion.

Good understanding and complete national co-operation between east and west cannot be built up in this way. It is impossible to apply one principle toward western agricultural industry and an opposing principle to eastern manufacturing industry. The same principle must be applied both east and west.

Double Jeopardy
A correspondent assures us that the following notice has been posted about an electric station in Donegal: "Beware—To touch these wires is instant death. Anyone found doing so will be prosecuted."

Emerald Lake, Yoho Park
Beautiful Emerald lake, in Yoho national park, British Columbia, was first visited by Tom Wilson in 1882 while searching for stray cattle horses. As far as is known, he was the first white man to visit this lake.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Settlement Scheme Nears End

Three Thousand Family Settlement Plan Has Been a Success

In a few weeks the 3,000 family settlement scheme will end and no project of like nature will take its place. Hon. Robert Forke, Minister of Immigration, stated recently. There was no desire to make the project an endless one by replacing settlers who had abandoned farms, he said.

The project had been successful in every respect, and Canada had acquired an increase of about 17,000 souls brought it. Already 3,250 families had been brought to Canada under the scheme; a total of 520 families had abandoned their farms for various reasons; 34 had been deported; 72 had returned to Great Britain of their own accord, while 414 remained in Canada in other employment, either in agriculture or other work.

WHAT OUR GIRLS NEED

When Languid, Anaemic and Feeling Run Down

When a girl grows languid, dull and irritable, when her color fades and she becomes pale, you may be sure that her system is suffering from impoverished blood. The bright, red color of the blood is caused by the presence in it of millions of tiny red corpuscles. It is these tiny bodies that carry nourishment from the blood to the tissues. They also cause the glow of health in cheeks and lips. When a girl's blood is deficient in these red corpuscles her body is under-nourished, her nerves starved, and there is serious danger of a decline. What is needed is an improvement in the quality of the blood, and it is a scientific fact that a course of Dr. Williams' Pink Pills will so enrich and purify the blood that all traces of anemia and its accompanying weaknesses will disappear. As an evidence of the value of Dr. Williams' Pink Pills in cases of this kind, Mrs. John Finnis, Howden Station, P.E.I., says:—"I am glad to take this opportunity of recommending Dr. Williams' Pink Pills. My daughter was in a badly run down condition; very pale, nervous and much under weight. We tried several medicines, but they did not seem to do her any good, so I decided to give her Dr. Williams' Pink Pills. After taking a bottle she began to improve, and after the use of a few boxes she had gained in weight, her appetite improved and she had a better color in her cheeks—in fact she had fully regained her former good health. I would advise every mother of young girls to give them Dr. Williams' Pink Pills at the first sign of an anemic condition. You can get these pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Bad Either Way

Scott (to friend while visiting London): "Now, mon, I can't stand taxicabs! When I sit w' m a back tax the driver, it makes me feel sick, and when I sit w' m a face tax the taximeter, it makes me feel nae better."

Keep Minard's in the Medicine chest.

Refine Gold At Mint
Most of Canada's gold bullion is now refined in the Royal Mint at Ottawa.

Wretched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dispels the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

Canadian Jersey Breeders
Good Market In States For Canadian Bred Jersey Cattle

Writing from Tupelo, Mississippi, W. Elmo Ashton, chairman for the Canadian Jersey Breeders' Association, points out that it is apparent to anyone going through the States of Georgia, North and South Carolina, Mississippi and Alabama that the southern states offer a great market for Canadian Jerseys. In the past year and a half these states have taken from Canada over 800 head of young bulls and heifers.

With a population that ranks 28th among the countries of the world, Canada is fifth in total exports and third in total turnover of trade.

Discover Radium Mines

Find in England Has Already Yielded \$5,000 Worth

Radium mines are not discovered every day, but some meteorologists while exploring a lead near Mallock, England, had their candle lights extinguished by bad atmospheric conditions. They saw ahead of them a dimly lighted cave, and a sample of earth taken from the cave was sent to Mme. Curie, who declared it to contain radium. The mine and estate was then bought for \$450,000. Further exploration, it is stated, has resulted in the discovery of another radium active mine, which is now to be exploited. The estimated value of the radium already found is \$5,000.

Zeppelin's Flight Cancelled

Atlantic Trip Of German Dirigible Postponed Until 1930

A special despatch to the Telegraph Union from Friedrichshafen said that the trans-Atlantic flight to America of the dirigible Graf Zeppelin had been postponed until 1930. A flight around the world for the big airship was scheduled to start about July 15.

The Graf Zeppelin's last attempt to fly to America ended on May 17, when crippled motors forced her to turn back over Spain.

Small Churches In England

What is said to be the smallest ecclesiastical building in Britain is St. Margaret's Chapel, Edinburgh. This little church is only 16½ by 10½ feet. Dorset church at Winterborne Thompson, is 23 by 14 feet. Churches at Culbone and St. Lawrence are also small, having less than 420 square feet of space.

Sheet Glass Factory

Calgary May Be Selected As Suitable Place For Establishing Plant

"Calgary is very suitable for the establishment of a sheet glass factory, and it may be chosen as the site for such within a year, according to F. S. Hobbs, of Toronto, vice-president of the Consolidated Plate Glass Company, who has been inspecting various cities in Western Canada with a view to locating a branch plant. A big business is being done in plate glass in the Prairie Provinces, he said, making it advisable for the firm to enlarge its present holdings.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Exterminator is an excellent medicine to destroy worms.

Believe It Or Not

A small tortoise, on which Mrs. Sarah Blair, now dead, carved her initials and the year "1862," 67 years ago, has been found by her daughter, Miss Mary Blair, within a mile of the original Blair home at Scottsburg, Ind.

Consumption Of Wheat Found To Have Declined Considerably In Recent Years

Is wheat bread no longer the stout staff of life it used to be? Statisticians whose business it is to look into the matter find that the consumption of wheat has shrunk from 5.6 bushels per capita in 1913, to 4.3 bushels per capita in 1926. Into the cause of this decline the United States senate has ordered the secretary of agriculture and the secretary of commerce to investigate. These two departments of the Washington government are to report to the senate not later than the beginning of the session of congress which meets in December.

The result of that inquiry will be interesting to all countries in which wheat is produced on a large scale, and to no country more than to Canada. They will be curious to know if people are changing their habits of eating, and are finding more satisfaction in supplementing their grain food by other edibles. That there has been a remarkable increase in the consumption of green vegetables and fruits and of preserved vegetables and fruits is a notorious fact, but it would be surprising to learn that the consumption of these foods has gained upon the consumption of wheat products so as to displace almost 25 per cent. of the latter. Green vegetables and fruits in the form of salads have undoubtedly taken a considerable percentage of the demand that formerly went to meats, but their part in lowering the consumption of bread was not generally suspected to be great. Yet let any observer of people who take their lunches at cafeterias speak and he will probably say that it is noteworthy how generally they pass by the bread rolls and biscuits to fill their order from other edibles.

Tastes change, new appeals to the appetite are brought forward, and the advice of dieticians is being followed as it never was followed before. It seems improbable that the decline in the consumption of wheat bread is owing to enforced frugality. A very large part of the world's population can afford better meals than they could before the war. If, as appears to be the case, people diversify their foods more than in former times, the hint should be taken by our western farmers to diversify their agriculture and produce more kinds of foodstuffs than they now produce—Milk and Eggs.

Moose Jaw a Milling Centre

Is Now the Second Largest Milling Centre in Western Canada

Moose Jaw is now the second largest flour milling centre in Western Canada. The Roblin Hood Mills produce 4,000 barrels of flour, 1,250 cases of cereals and a heavy tonnage of standard stock foods every day. Moose Jaw is also the Prairie livestock centre and headquarters of the Saskatchewan Feeder Show and Auction Sale, with 3,000 head of cattle and 10,000 sheep on show and sale every October.

Encourage Sheep Raising

Project Launched in Manitoba To Place More Sheep On Farms

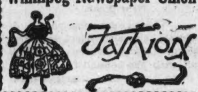

The plan recently launched by Lieutenant-Governor J. D. McGregor, of Manitoba, to place more sheep on the farms of the province, and which led to the formation of the Manitoba Livestock Credit Company, to finance the project, is making headway in the Brandon area. A committee has been appointed, with J. C. Riddell, manager of the Canadian Bank of Commerce, as chairman, to handle applications for sheep. The committee reaps no pecuniary gain and railways, banks and other large financial bodies are backing the project.

Exhibit Canadian Furs

Proposed To Send Collection To Fur Exhibit At Leipzig, Germany

An exhibit of Canadian furs valued at \$75,000 will be included in the fur exposition in Leipzig, Germany, this summer, if plans of leading Canadian buyers mature. Consideration is now being given by Hon. James Malcolm, Minister of Trade and Commerce, to a proposal that the Government bear the expense of erecting and staging the exhibit. A collection of the most beautiful furs produced in this country is being made for the purpose.

For Land Settlement

J. F. Weston, vice president of the Colonization Finance Corporation of Canada, Ltd., and managing-director of the Imperial Life Insurance Company. The Colonization Finance Corporation has entered into an important agreement with the Canada Colonization Association for the settlement of privately owned lands, says the Department of Colonization and Development, Canadian Pacific Railway.

Realizes Importance Of Canadian Trade

France May Make Another Trade Treaty With Dominion

France regards Canada as one of the best fields for monetary investment in the world and realizing the importance of the Dominion appears likely soon to enter into another trade treaty with this country, widely in scope than the one now in effect, the opinion of Hon. Philippe Roy, Canada's minister to France, Mr. Roy who was in Vancouver, planned a trip into the Peace River District before returning to France.

Both France and Canada appear to realize the advantages of further mutual trade concessions said Mr. Roy, and a growing trade between the countries can be expected. Mr. Roy also visited Edmonton, which was his home prior to 1911.

"I want to see all of this country that I can," he said, "because I am going to do a great deal of talking about it when I return to France."

Canadian Grasses

Scientific Study Will Result In Increasing Yield Of Pastures

The scientific study of Canadian grasses has brought such good results that the Canadian farmer, in certain circumstances, will be able to triple the value of his pasture. Dr. Frank T. Shutt, Dominion chemist from Ottawa, told the Dominion Chemical convention at Toronto, in the course of an address on the subject of the experimental farms.

A Real Optimist

"Now, young sir, what is it you want," said an old woman who kept a toffee stall to a little boy. "Nothing miasma," replied the lad. "I just come to see what I might have got if I hadn't lost my penny!"

SUN PARLORS FOR CANADIAN TRAINS

Parlor cars with glassed-in observation platforms are the latest addition to the equipment which the Canadian National Railways are using on their trains between Winnipeg and Duluth and the boat trains between Winnipeg and Port Arthur. Vita glass is used in these sun parlor cars, this type of glass letting in 75 per cent of the violet rays—the health-giving part of sunlight—which are not able to pass through ordinary glass. The size of the windows permits unobstructed vision of the scenery and the cars have been tastefully decorated and furnished. They represent the most up-to-date type of rolling stock in use on the continent.

American Universities To Put On Special Course For Criminal Research Work

Buffalo Herd Menaced By Wolves

Pack of Wolves Play Havoc With Buffalo In Slave Lake Reserve

Wolves are taking a heavier toll of buffalo from the Slave Lake reserve than lions or disease, states J. G. D'Aoust, former warden in the reserve, who has just reached Edmonton from the north.

There is one pack of wolves in the park, between ten and fifteen in number, which kill upwards of a hundred buffalo each year, despite the efforts of the ten guardians who are continually hunting the grey killers. D'Aoust was stationed on Slave River, 85 miles north of Chipewyan and patrolled a line some 65 miles in length. In this section alone he found the remains of 11 buffalo that had been killed by timber wolves during the past winter.

Although upwards of 10,000 buffalo have been shipped into the reserve by the government, D'Aoust declares that at the most there are not over 5,000 animals here now, including the original herd of 1,500 wood buffalo. He estimates that 75 per cent. of the yearlings shipped in have died from injuries received in transit and the flies which they had to face on being freed.

Indians living on the area enclosed by the reserve at the time it was set aside are permitted to continue to trap and hunt there, but they cannot kill any buffalo. It is very rarely that they break this regulation. Whites are not allowed to hunt or trap within the reserve.

Solves Old Problem

Geological Survey Tells What Becomes Of Rain Water And Snow

What becomes of the rain water and snow?

The question has been answered by the geological survey of the department of the interior, at Washington, after a three-year study of Pomperaug Basin, in Connecticut, which is regarded as a typical area.

Of about 44 inches of water that falls annually in the basin as rain or snow, 21 inches flows out through streams. Twenty-three inches of it is returned to the atmosphere by the process of evaporation from the soil, water surfaces and surface objects, and from being drawn up by roots of plants and given off through their leaves.

Of the 21 inches that is carried away by streams, 12 inches never gets into the ground but immediately runs off, while about eight inches of the river water first finds its way underground and reappears in springs and seeps.

Sunday School Teacher (reading of the deluge): "And then it rained for forty days and forty nights." Bright Pupil: "And were the farmers satisfied then, teacher?"

Indignant at the growth of crime on its body politics, its reputation smirched by the smoking guns of gangsters, the City of Chicago will cradle its own potential deliverer—the super-detective.

This creature, heretofore only a myth of fiction, will be made into flesh and blood to replace the policeman whose chief qualification often is but a stout heart.

Two of America's leading universities, both in Chicago, have hung up handwriting on the wall for the heretofore undetected murderers, chief, firebrand, kidnapper, racketeer and other transgressors on the peace and comfort of society. Police work will henceforth be a part of the curriculum at Northwestern and Chicago universities—and racket-ridden Chicago will be their research laboratory.

August Vollmer, chief of police at Berkeley, Calif., will head the new department at Chicago, and will inaugurate the course at the beginning of the fall semester next. October. Leonard White, professor of administration and chairman of the local community research committee at the university, who worked on the plans with Chief Vollmer, said that while the course will be confined at the outset to the problems of police administration, it will become eventually a major study in which the student may work for a degree.

Every avenue of learning that can aid in the tracking down of a criminal will be thrown open to the embryo detective. White said. The course eventually will be designed to permit special study of one or two years as well as the full four-year college course for those who wish it. An inter-departmental committee will co-operate with Professor Vollmer to see that his students are well-grounded in all the sciences necessary to intelligent investigation.

The student undertaking the full course will study the chemistry of poisons, criminology, sociology, psychology, physics and anthropology and learn to apply the studies to the investigation of crime.

If People Had Time

Many Have Delusion That They Could Become Famous

Isn't it funny, too, how many of us harbor delusions that we could become famous or wealthy if we had time. We think that we could write a novel, or a play, or maybe a movie scenario—if we had time. Or perhaps we could develop a new rose or a gladiolus, or an iris, that would make our name known throughout the horticultural world—if we had time. Or we might write poetry—if we had time. All these make pleasant dreams, but each of us has "all the time there is" and it is most likely that, if we were forced to take a chance, we would suddenly begin to do the things we have always thought we wanted to do.

Read To Sheritt-Gordon Mine

With the roadbed complete, laying of steel on the 42 mile railway branch, Cranberry Portage to Cold Lake, to serve Sheritt-Gordon, has started, and by the end of August the job should be near completion. Sheritt will then take in its 1,500 ton mill.

"Mother, that lady must be very poor."

"Why?"

"She hadn't enough cloth to make a coat, and she had to fasten it with fur."—Lausige Kölner Zeitung, Cologne.

I've forgotten I ever had any nerves

Your doctor will tell you how the act of chewing relaxes and soothes strained nerves, and how the healthful cleansing action of Wrigley's refreshes and tones you up all round. Aids digestion.

WORLD HAPPENINGS BRIEFLY TOLD

Manitoba contemplates celebrating its diamond jubilee on July 15, 1930. It was announced at Winnipeg by Premier John Bracken.

The London Daily Sketch said Premier MacDonald had refused Leon Trotsky, former Russian war chief, permission to enter Great Britain as he requested recently.

The Japanese naval training cruisers "Akama" and "Tataka" will visit Vancouver on August 10-12. It was stated at the Japanese consulate there.

Albert Voight, a German, has left Seward, Alaska, in a 16-foot, collapsible walrus skin sailboat for New York. He hopes to complete his 6,700-mile trip in six months.

Charles Colebrooke Patterson, eldest son of the late Hon. J. C. Patterson, former lieutenant-governor of Manitoba, is dead. He was born in Ottawa, in 1868, and for a number of years was his father's secretary.

Flight tests will soon be made of television apparatus, calculated by its inventor, C. Francis Jenkins, Washington physicist, to reproduce conditions as seen from an aeroplane, on a screen miles away.

Japan's co-operation in any disarmament program hinges on that Premier Ramsay MacDonald and Ambassador Davies may have begun has been promised by Premier Tanaka.

France is preparing to bring into force a wide scheme of social insurance. It will cover sickness, old age incapacity, maternity benefits, and, to a certain extent, unemployment.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

Makes For Unemployment

One of the causes of unemployment in Europe is that our working lives have been prolonged, declares a statistician. At one time, he says, "too old at forty" was the cry throughout the world, but we have now found that we are not too old at 60 or 65.

A Severe Attack of Dysentery Checked by 4 Doses

Mr. I. Burtonwood, 620-22nd St. W., Saskatoon, Sask., writes:—"My child, when only seven months old, had a very severe attack of dysentery, and after three days' treatment with other things, he decided to use Dr. Fowler's." On this day his bowels had moved twenty-three times in eleven hours, but four doses checked it.

"A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours."

"We both always keep a bottle of Dr. Fowler's handy at all times. This medicine has been on the market for over 80 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont."

Declares Allies Fear Of Germany Abundant

Only Nation Without Arms Says Minister Of Defense

Dr. Wilhelm Groener, minister of defense, in a speech reviewing Germany's military policy charged that the states victorious in the world war have done nothing along disarmament lines and endeavoring to show that it was absurd for the allies to claim they could not disarm until they were sure of not being attacked by Germany.

Speaking of present military forces, he said:

"France has, on European soil, 27 divisions; Belgium asks; Poland 30, and Czechoslovakia 26 brigades, a total of 76 divisions compared with Germany's seven. Who, I ask, needs security? I can't leave unmentioned that besides these troops, the other nations also possess aviation squadrons, heavy artillery and powerful reserves of trained men and war material of a kind we do not possess at all."

A WARNING TO MOTHERS

Watch the Health Of Your Little Ones At All Times

No mother can expect that her child will escape all the ills to which childhood and childhood are subject, but she can do much to lessen the severity of these troubles. The mother should be constantly on her guard to prevent childhood ailments, or if they come on suddenly as they usually do, to have the means ready to hand to relieve them. Thousands of mothers have found Baby's Own Tablets the ideal remedy for their ones—thousands of mothers always keep the Tablets in the house as a safeguard against the sudden illness of their little ones.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels; sweeten the stomach and thus banish constipation and indigestion; break up colic and simple fever and make the cutting of teeth easy. The Tablets are absolutely guaranteed free from injurious drugs and may be given to the youngest child with perfect safety. They are sold by medicine dealers or by mail at 25c a box from Dr. Williams' Medicine Co., Brockville, Ont.

Speckled Trout For Jasper Park Lakes

Anglers May Expect Real Sport In Canada's Largest Mountain Playground

So successful was the experiment made by the Dominion Government last year in stocking Maligne Lake, in Jasper National Park, with trout, that a quarter of a million more fry are now growing up in the hatches there, and will be turned loose in the great glacial lake in a few weeks time.

As eggs, the 250,000 travelled to Jasper from Cresco, Pennsylvania, last winter, and so carefully was the precious freight handled by the Canadian National Express that only 70 of the eggs failed to hatch. Arrived at Jasper, the eggs were given into the care of Warden Herbert Davis, who is carefully nursing them, along. He feeds the multitude four pounds of chopped liver a day and keeps the water moving and at a proper temperature.

Early in June the fingerlings will be taken out of their trays and transported in time to Maligne. The fish put in there last year," says R. Langford, supervising warden, "have done marvellously well and have grown to a good size. They and the new hatch are speckled trout. We expect a shipment of rainbow trout in a few weeks for Cabin Lake."

How Names Were Given

Europe is derived from Europa, in Greek mythology a woman who was carried off by Jupiter, who came to her disguised in the form of a white bull and bore her to the island of Crete. The Greek word is said to be derived from the Semitic 'ereb' meaning darkness, evening, sunset. Asia is said to derive its name from the Semitic word, "asu" meaning going forth, or rise of the sun.

"What would you say to anyone who sits himself down on your hat?"

"I should call him an idiot a stupid ass."

"That's all I wish to know — you are sitting on mine!"

Use Minard's for the rub down.

A Remarkable Hotel

Built On Swiss Alps and Is 11,480 Feet Above Sea Level

One of the most remarkable hotels in the world is the Jungfrau, perched high up on the Jungfrau, in the Bernese Alps, Switzerland, 11,480 feet above the level of the sea. Built of stone and iron, the hotel is welded, as it were, into the sheer rock of the famous mountain. Snow surround it eternally, and, in winter, it is buffeted by the fiercest blizzards of the Alps. But it gives hospitality and warmth to climbers and to the tourists who visit the mountain by the funicular railway from above Interlaken. From the windows of the hotel lounge one often looks out up on a world of clouds, through which some of the high peaks of the Bernese Oberland stand out like rugged islands.

Nearly every member of the hotel staff is an expert mountaineer. For though the funicular runs to within a short distance of the hotel there are often long spells during the winter when the heavy snows prevent all communication with the outside world. Then, the only means of reaching civilization is by ski along dangerous mountain tracks. The Jungfrau hotel had its origin in a ramshackle shelter but built by workmen engaged in the construction of the funicular in 1912. From this dwelling where they ate their simple meals of beer and bread has arisen the hotel that is unique in the world.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, a most effective vermifuge. It is absolute in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

Professor—Go your fastest my man! I am in a desperate rush.

Taxi Driver (after speeding along for 30 minutes)—Say, you forgot to tell me where we are going.

SUNDAY SCHOOL LESSON

JUNE 30

Golden Text: "I have loved thee with an everlasting love, therefore with lovingkindness have I drawn thee."—Jeremiah 31:3.

How many Christians there are who, like those priests, are miserable because unacquainted. While on every hand opportunities call for the devotion of their energies, they are unwilling to lay hold of them.—J. Stuart Holden.

If ever there was a suffering servant, despised and rejected of men, that servant is the Jewish people.—Jewish Chronicle.

Take the task he sends you gladly. Let His work your pleasure be; Answer quickly when He calleth, "Here am I, send me."—Daniel March.

With bonds and scorns, and evil will The world requites its prophets still.—Whittier.

He who shows me the achievements of a bygone man touches my lips with a live coal from off the altar.—Carlyle.

We are but poor judges of form or comeliness, and what is lustrious with perfect beauty in God's eyes may be, and generally is, plain and dowdy in men's.—Alexander Maclean.

God's goodness hath been great to thee; Let never day nor night unhalloo'd pass. But still remember what the Lord hath done.—Shakespeare.

For Cataract.—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as outwardly. Sufferers from cataract will find that the oil when used according to the directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Canadian Delegates For Press Conference

Minister Will Have Largest Representation At Imperial Meeting

J. H. Woods, managing editor of the Herald, Calgary, Alta., recently sailed for London, where he will consult with the council of the Empire Press Union in connection with the Canadian contingent of press delegates to the Imperial Press Conference, being held next year. Mr. Woods said that Canada will be sending 20 delegates to represent the 60 members of the Union in Canada. This is the largest representation of any part of the Empire. The last conference was held in Australia in 1925, and the one previous to that, in 1920, was held in Canada. The Imperial Press Conference is being held in London, England, in June of next year.

"Skinny" Women! Gain Weight Quick

New IRONIZED YEAST adds pounds in few weeks. Results guaranteed—or pay nothing

Why let a "skinny" body, bony limbs and weak health ruin your charm? Ironized Yeast adds 5 to 15 pounds (or more) in few weeks; clears your skin; banishes wrinkles; gives you new strength. People ask—how does Ironized Yeast work so fast?

Ironized Yeast is two great tonics in one. Weight-building YEAST "treated" with a kind of strengthening, blood-enriching IRON used for years by highest medical authorities. The Yeast is also treated with Violet Rays to increase its effectiveness.

Only when Yeast is Ironized is it most effective. Iron is needed to bring out the weight-building, strengthening values of Yeast.

"Pleasant tablets. No 'yeasty' taste or 'bloated' feeling." No "excessive" watery or "plumpy" feel and look years younger. Get full size treatment of Ironized Yeast today from any druggist. If not delighted, with quick results, get your money back. If inconvenient to buy from druggist, send \$1.25 direct to Canadian Ironized Yeast Co., Ltd., Port Huron, Ont., Desk 426-MX.

The "Canadian Mediterranean"

Montreal Journal Sees Important Future For the H.B.R.

Commenting on the completion of the Hudson Bay Railway, Le Devoir, of Montreal, edited by Mr. Henri Bourassa, expresses the belief that the new line, stretching from Montreal to the Arctic, will prove a valuable addition to Canada's transportation system, not only as a development route, but as an export route. The richness of the country through which the new railway passes has already been noted by the Le Devoir states, foreseeing large mineral, pulp and paper, and metallurgical establishments along the route. It applauds also the manner in which the Government is amassing data on the navigability of the Bay, and concludes: "It is improbable that the route will become a serious competitor of the St. Lawrence, but it is sure to be useful, and will become so more and more as seamen become familiar with navigation conditions."

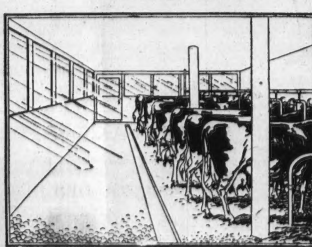

Minard's Liniment for sick animals.

University of Alberta

The University of Alberta has just celebrated its twenty-first birthday. The first president, Dr. H. M. Tory, now president of the National Research Council of Canada, and the first premier of the province, Hon. A. C. Rutherford, participated in the anniversary ceremonies.

WINDOLITE

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light hit strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 58 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 125 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100% Sunlight Send for booklet "WINDOLITE"

Distributors: JOHN A. CHANTLER & CO., LTD.
51 Wellington St. W. TORONTO, ONT.

The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays, are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that it has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has done the last six years of poultry raising, and poultry breeding, increasing the egg-laying capacity and the health of the fowls, greatly improved the health of cattle and is now being used in domestic and household requirements.

WILL NOT FOLLOW LEAD OF U. S. IN SHAPING TARIFF

Grand Bend, Ont.—Independence of action on tariffs is the policy of the government, and upward revision of tariff schedules by the United States, being a matter entirely for the United States to decide, calls for no retaliation or reprisal on the part of the Dominion. This was the key note of addresses by Hon. Ernest Lapointe, minister of justice, Hon. J. C. Elliott, K.C., minister of public works, and Hon. W. D. Euler, minister of national revenue, who spoke at a picnic here under the auspices of the South Huron Liberal Association.

Mr. Lapointe made extended reference to policies advocated by Hon. R. B. Bennett, Conservative leader, at present on a tour of western Ontario.

"The remedy he suggests is that we should adopt American methods in our fiscal policy," Mr. Lapointe said. "But our ideas and ideals are Canadian and British, and we won't follow American methods. We will shape our policies, fiscal and otherwise, at Ottawa. We won't take them from Washington."

"We are satisfied with Canadian methods and British doctrine, and if necessary we will find other outlets for our trade. We always have in mind Canadian interests. Since 1921 have not the Canadian people been satisfied with the way our financial policies have been shaped under Mr. Robt. who budgets we are proud to mention during the last election?"

"We have not been dictated to by American theories. We have tried to meet the problems of Canada on conditions were at the time. British preferential trade treaties have been part of our policy."

"The Opposition lately has been coming to adopt that policy, but the fathers of British preference were the late Sir Wilfrid Laurier, and the Rt. Hon. W. S. Fielding. From the start it was successful and our exports to Great Britain increased \$75,000,000 the first year. Last year they reached \$446,000,000 and we bought only \$183,000,000 of British goods. But if you expect the nations of Europe to give you trade, you must buy from them. Trade, after all, is exchange."

"In view of the figures I have quoted I cannot understand the complaint from some quarters about British goods coming here which they have had to sell us. We have concluded forty-three trade treaties with other nations and our exports as a result were \$220,000,000 in 1929."

"We will continue to shape our financial policies on a national basis in the interests of all sections in Canada," Mr. Lapointe continued. "We will legislate not for one class, but for all classes and groups in the Canadian people. A country which is as large as Europe cannot hope to live to itself, nor to erect barriers with the rest of the world. The future is with us."

"Let us not look at the past for reasons of doubt and despair, but to the future for reasons of hope and belief. God and nature are with us and nobody is able to fight for long against God and nature." Our guarantee of success is within ourselves. We continue to improve our methods of production and you may be sure our prosperity will continue."

Forty Believed Drowned

Bogota, Colombia.—Forty persons are believed to have drowned and more than 100 injured in the practically total destruction of the town of Sevilla by floods from the Quindio river after a landslide from a hill into the river had caused it to change its course. Sevilla, which is in the department of Cauca, had out 6,000 inhabitants.

National Wealth Grows

Ottawa.—The national wealth of Canada, exclusive of undeveloped natural resources, is placed at \$27,687,000,000 for the year 1927, in an estimate made public at the Dominion Bureau of Statistics today. It is an increase of \$100,000,000 over the 1926 estimate.

W. N. U. 170A

Warning Was Disregarded

Cleveland Clinic Told In April That Film Used Was Dangerous
Cleveland, Ohio.—Making no attempt to fix the blame but pointing out that the Cleveland clinic had been warned of faulty X-ray storage which cost 123 lives by fire and poison gases, May 15, Coroner A. J. Pearce completed his report after a month of investigation in a report on file with official county records.

The warning was sent to the Ohio inspection bureau of the fire underwriters' investigating service last April. It called attention to the fire hazard in the type of film used at the clinic, urged use of another kind and advised clinic officials that the film, if burned, would generate great clouds of noxious fumes. The film was stored in the basement and was ignited by a means not determined in the investigation.

The report placed the official number of dead at 123. They were killed by a combination of nitrogen peroxide gas with carbon monoxide the coroner said.

May Revise Tariff

Drastic Changes Considered By Dominion Government Is Report
Toronto.—The Toronto Globe published the following despatch from its Ottawa correspondent:

"Changes which will have a revolutionary effect on Canada's external trade, are under consideration by the Dominion cabinet. In response to demands from all parts of the country for action, the government was taking preliminary steps toward what will undoubtedly be the most drastic revision of fiscal policy of the present century."

"Present prospects are that the vital changes will take the form of a material increase in the British preference, if not the inauguration of complete 'free trade' on the bulk of British or Empire goods, while the general tariff, which applies to imports in the United States will remain stationary."

Prepare For Another Election

Liberal Party in Britain Sees Possibility of Another General Contest

London, Eng.—The possibility of another general election in Great Britain at no distant date is being taken into account by the Liberal party, which holds the balance of power in the new parliament. The Liberal administrative committee passed a resolution moved by Sir Herbert Samuel, chief organizer, "to maintain and strengthen the organization in the constituencies."

The committee also resolved that "whenever an appeal is made to the country the elections will again be strenuously contested by the Liberal party."

Health Authorities Conduct Investigations

Hundred People in Bowmanville, Ontario, Suffer From Plomine Poisoning

Bowmanville, Ont.—Health authorities are taking extra precautions and conducting investigations as the result of the second outbreak of plomine poisoning here in four days, during which over 100 persons have been affected in varying degrees.

The first outbreak occurred when scores of children and adults were poisoned by contaminated milk. The second and more violent cases occurred at a Sunday school entertainment and supper. Tainted salads are believed to have caused the outbreaks.

Air Line Crash

Lydd, Eng.—The coroner's inquest on the four victims of the air liner 'City of Ottawa's' crash into the channel, returned a verdict that the persons had lost their lives by drowning caused by the accidental fall of the aeroplane into the channel.

Ottawa.—The exchequer court has given judgment that the Sun Life Company has not the authority under its charter, to increase its capitalization from \$2,000,000 to \$4,000,000. The judgment has been issued by Mr. Justice MacLean.

IN BRITISH CABINET

Margaret Bondfield, successful labor candidate, is the first woman to be appointed to a British cabinet. She is the new minister of labor.

Alberta Adopts Old Age Pension

Movement Now Accepted By All Provinces In West

Ottawa.—Answering the communication of Hon. Peter Heenan, minister of labor, informing them that an order-in-council had authorized his proceeding to negotiate with Alberta for an old-age pensions scheme, the government of that province telegraphed acceptance of the plan.

When the Dominion cabinet meeting approved the scheme for Alberta, Mr. Heenan acted immediately and the reply came back to him within a short time of Alberta's notification. Alberta will adopt the pension system starting August 1, 1929. British Columbia, Saskatchewan and Manitoba have for some years enjoyed the old-age pensions scheme. Alberta's entry into the scheme links up the entire west in the movement.

Will Enter Competition

Canadian Mounted To Enter Rifle Matches At Camp Perry, Ohio

Washington.—Four Royal Canadian Mounted Police will compete in the National Rifle and Pistol matches at Camp Perry, Ohio, in August. The Canadians, the highest in 1929 revolver team competition, will fire against United States entries in the international police pistol match August 31. The men are Corporals A. D. Ford, D. E. Forest and J. G. Pelletier, of Lethbridge, Alta., and Constable J. D. O'Connell, of Ottawa.

Sacrifices Life For Child

Kingston, Ont.—Kenneth McIlroy the four-year-old child of whom Fred Denys sacrificed his life by hurling himself from the wagon he was driving on the highway five miles from here to sweep the child out of the path of an oncoming auto, died in hospital several hours later, never recovering consciousness after being struck by the machine.

Trotsky Would Enter U.S.

Constantinople.—Leon Trotsky, exiled Soviet leader, intends to apply to the United States government for permission to enter the country, according to reports current here.

Prince at Garden Party

Prince Henry, third son of the King, receives at a garden party held in honor of his Majesty's birthday, at Victoria, B.C. Lieutenant-Governor Randolph Bruce is on the right and Miss Helen Mackenzie, the latter's niece, on the left. The Prince is returning to England by Canadian Pacific Steamship and Railway from Japan.

Cabled French Airman

Lindbergh, Sends Message Of Congratulations To Trans-Atlantic Flyers

Paris.—Jean Anoulet, Rene Leferve and Armand Lotti, Jr., received by cable congratulations from Col. Charles Lindbergh, for their trans-Atlantic flight from Old Orchard, Maine, to Comillas, Spain, in the Yellow Bird.

The colonel's message, addressed to all three of the aviators, said: "On returning to New York I have just learned of your successful crossing. Please accept my sincere congratulations and best wishes."

The French fliers immediately cabled him in reply:

"We thank you heartily for your affectionate telegram. Our greatest claim to glory has been to have followed the route you traced two years ago with incomparable mastery in your flight from New York to Paris."

"Your magnificent example of courage, of tenacity of science as a pilot and navigator guided us every instant of our route. We address to you our most cordial and respectful salutations."

Confesses To Bank Theft

Eighteen-Year-Old Youth Pleads Guilty In Vancouver Police Court

Vancouver.—Arthur Thomas, 18, pleaded guilty in police court to a charge of robbing the Grandview branch of the Royal Bank of Canada, and elected summary trial.

Thomas, who held up five bank employees a day to work, was arrested in New Westminster a few hours later and practically all of the stolen money recovered.

The bank was held up as its manager, J. W. Logan, and four other employees were arriving to commence work for the day. Each was accosted as he entered and trussed up by the youthful bandit. He forced the manager and cashier to open a vault from which he seized money and then left the building by a back entrance. He left his prisoners in a cubicle the door of which they broke down shortly after his departure.

Solved All Murders

London Police Report All Murders Solved In 1928

London, England.—Every murder committed in London in 1928 was solved and the culprit was convicted or took his own life, according to the official police report.

The report of the commissioner of police showed that there were 18 murders of persons more than one year old. Eleven culprits were convicted and seven committed suicide, the report said.

Gets Month's Reprieve

Ottawa.—A reprieve until July 19 has been granted to John Ivanchuk, convicted of murder, who was sentenced to hang on June 21. Cabinet, having considered the case, has decided to put the execution off for a month. In the meantime it is expected that new evidence bearing on the case will be submitted to the federal authorities for consideration. Ivanchuk was convicted of the murder of License Inspector Harry Constable at Cochrane, Ont.

DRIVE AGAINST RUM RUNNERS ALONG BORDER

Windsor, Ont.—With a warning by Attorney-General, Price that crime would not be permitted within the borders of the province of Ontario and with the United States blockade tightening, rum runners are continuing their activities along the border. Reports told of feverish activity at the export docks, as cargoes of liquor destined for United States river and lake ports were being loaded.

Aroused by the reports of the kidnapping of newspaper photographer and revolver battle between States custom patrol cutter, Attorney-General Price announced that if necessary he would double the provincial police along the Windsor-Niagara Falls sector to protect Canadian citizens.

It is along this section of the border that the battle lines are most closely drawn due to recent strengthening of the United States preventive forces.

As a result of the statement of the attorney-general, the rum-runners may find their activities on the Canadian side of the line more restricted. The attorney-general was emphatic that crime would not be permitted within the borders of the province.

Meanwhile, reports from border points indicated that despite the drive against the rum-runners, activity at the border export docks continued. Rum-runners were reported active at many points.

A party of rum-runners engaged in a pistol battle with a United States customs patrol cutter, the cutter being forced to return to port after being peppered with bullets, while the rum-runners retreated to the Canadian shore. The rum-runners crouched behind bags, apparently filled with liquor, as they exchanged shots with the customs men.

At Dunkirk, N.Y., two men were arrested when a United States coast-guard boat captured a motor boat loaded with beer.

Two recent developments were placed before Dominion government officials. The department of external affairs received a report on the incident at Sandwich when it was claimed a private speed boat, not engaged in the liquor traffic, was fired on by a United States patrol boat. Should further investigation warrant, the department will investigate this affair. The department of national revenue was notified of the kidnapping of the photographer of a border cities newspaper but the opinion was expressed that it did not come within the scope of the department.

Report Seeing Huge Meteor

Fell Into Lake Superior Says Prospector Near Soo

Sault Ste. Marie, Ont.—A strange tale was brought down to the Soo from Michipicoten Island by Frank Kusick, prospector, who said a huge meteor about the size of a ship fell into Lake Superior close to the island at 10 o'clock on the night of June 11. The meteor illuminated the island with the brilliancy of daylight and created a rumbling noise which was heard for two minutes after it fell.

Quite a sea arose after the meteor struck the water and the level of the lake rose appreciably.

Will Not Resign

Lynn, Mass.—"I don't intend to get out, and no power on earth can make me. This old age stuff will have no effect on me." Thus did Police Chief Thomas M. Burckes, who is in his 84th year and who has been a policeman for nearly half a century, recently answer persistent rumors that he was about to resign.

Experiment Fails

Hong Kong.—Army aviators carried out rain-making experiments above Hong Kong, dropping a chemical known as "Doolin" from the clouds. The experiments were not successful. Hong Kong is suffering from severe water famine necessitating drastic action to replenish its supplies.

CHAPTER I.

Cool gray dawn of a work day in the modern Babylon—New York. The black curtain of night rose silently, seeming to trail ghostly spirals of mist. Against the sky's flat monotone the irregular and fantastic shapes of the skyscrapers stood out boldly—powerful and mysterious creations of Man.

In the dark canyons of the city streets dark figures moved purposefully toward their destination—factory hands with lunch kits tucked beneath their arms, stalwart steel-construction men who carried the pride of craft in their way of walking, slim girls with the vivid memory of the night's romantic dreams still shining in bright eyes.

But uptown, in the glittering gay places of the city, was a sharply contrasting scene. In the "roaring forties" and "fifty fifties," where denizens of Broadway and fashionable Park Avenue "make whoopee" through the sleeping hours, the night clubs were ending their day. Through the unlined doorways came lovely ladies in ermine coats and jeweled slippers, and men with silver-topped walking sticks, and top hats at rakish angles. Their heavy listlessness was broken occasionally by hysterical laughter.

In the lobby of the resplendent Plaza Club, Marcus, the revue producer, helped a pretty young actress into her fur coat. As he did so his arm went around her lingeringly for a moment, while she turned her graceful head and glanced knowingly into his eyes. Another man and girl of the Marcus party waited nearby.

"Well, let's call it a night," suggested Marcus, his hand resting affectionately on the girl's arm.

"No—please! Let's not go home. We can have lots of fun yet."

Her tone was wheedling, her smile gay. She was playing up to Marcus, first, because he was the great Marcus, secondly, because she wanted her own way. And now she turned to the other couple.

"Don't let him send us home yet," she said in the tone of a spoiled child. "We're having fun. We can go to some other place."

The other man and girl nodded, and the actress turned to Marcus.

"You see?"

Marcus sighed, then made one last stand.

"All the other places will be closed," he insisted.

"No, they won't, Blackie Joe's is open—the fun is just starting down there."

The revue producer made a grimace of distaste. "But that's such a dump."

Suddenly the actress seized Marcus by the arm and led him toward the doorway. She spoke rapidly and soothingly into his ear:

Marcus acquiesced with a faint smile and a characteristic shrug of the shoulders. The chauffeur of his handsome limousine sprang to attention and swung the car door open as the party came down the steps. They stepped inside and the car purred away.

Inside, Marcus felt the girl's head on his shoulder. He put up his hand and stroked her glossy hair, keeping his eyes straight forward. Yes, he liked her, but he liked many women. Primarily, this shrewd revue creator was interested in women as talent for his gorgeous productions. His gift for "spotting" talent had made him Broadway's most notable figure in his line. To be "discovered" by Marcus meant fame for any girl.

The car drew to a stop before the shabby exterior of Blackie Joe's place; the party mounted the narrow, unpainted, somewhat rickety stairs; at the top the peep-hole panel of a locked door was pushed aside in response to Marcus' knock. The suspicious eyes of the doorman looked them over, then cautiously swung the door back.

Inside the tiny lobby they surveyed through another doorway a smoke-filled room and a crowded dance floor, where closely massed figures undulated to the muffled but insistent rhythms of jazz music. An odor of stale beer greeted them and again Marcus made a grimace of distaste, which he quickly stifled. When the check girl had taken their wraps they moved toward the main room.

This was slumming with a vengeance, thought the fastidious Marcus. In contrast to the brilliant and richly upholstered club they had just left this halfway of the downtown back streets seemed strangely threadbare and woebegone.

The producer did not like the appearance of some of the patrons. As his party entered the low-ceilinged main boom the dance music stopped and the couples threaded their way back to their tables. A curious and rather sinister quietness pervaded the room for a moment; Marcus and his expensively garbed friends were met by lowering stares that seemed threatening.

Marcus' keen, darting glance caught the covetous gaze of a man at a nearby table fixed on the heavily jeweled hand of the actress friend. Without a word the producer stepped in front of her protectively. And then—

Suddenly the figure of Blackie Joe, himself appeared across the room. He strode toward them rapidly with his best welcoming smile.

"Well, Mr. Marcus, this is a great honor!"

Marcus relaxed with a sigh of relief and took Blackie's outstretched hand. Blackie turned toward the back of the room, calling:

"Hey, Al! Ringside table for four!"

Al Stone, the head singing waiter and prize comic at Blackie's place, spun about. From their appearance these were important people.

"This way, ladies and gentlemen. Here's a nice spot."

The party relaxed about the round, white-topped table. Then Marcus, ear of the Broadway revues, turned to give the order. He looked up into the handsome, intelligent face of Al Stone, the obscure performer. As he

APPETITE IMPROVED

Enjoy the Taste of Food
If you have no desire for food, and you feel out of sorts, and depressed, stimulate your digestive organs. Try Dr. Carter's own formula. These pills taken after meals will aid digestion, relieve the gas, regulate the bowels, expel constipation, poisons and astringe appetite.

CARTER'S PINK PILLS

did the actress next to him whispered, "Four beers?" Marcus nodded and repeated the order to Al.

The waiter straightened up and looked about for Blackie. These people were important, but he couldn't fill the order until he had the high sign from Blackie. He caught Blackie's eye and saw his right hand go up with the okay gesture. Then he turned away.

Who were these people he wondered, toward whom the boss behaved so deferentially? Well, it didn't matter. You could see, to look at them, they had plenty of jack. Later he would sing one of his best comic songs for them. They would probably loosen up with a good tip.

Someone else was speculating on the Marcus party, too. In the background, several tables away, stood Grace Parrel, the cigarette girl, her slim fingers resting on her tray, which was suspended from her shoulder by a wide ribbon. Her eyes were wide with awe, for she had heard Blackie Joe whisper the words, "Marcus of Broadway."

So this was the legendary Mr. Marcus, who made performers famous. But the thoughts of little Grace were not for herself. They were for Al Stone. Even as Al leaned over to take the Marcus order her gaze had been alight with admiration for the singing waiter. If only Mr. Marcus knew how smart Al was, how funny he could be, what wonderful songs he wrote!

She tried desperately to catch Al's eye. She must reach him and tell him the name of this distinguished personage!

(To Be Continued.)

Big Aviation Merger

Saskatchewan and Alberta Interests Will Make United Bid For Mail Contract

In the biggest aviation merger in the history of western Canada, commercial aviation interests of Saskatchewan and Alberta have united under the name of the Great Western Airways, Limited, according to announcement made by Capt. Fred. R. McCall, managing director of the Calgary Flying Company.

Commercial Airways, Ltd., Edmonton, and Commercial Airways, Ltd., Regina, decided at a meeting in Regina, to pool their interests with the Great Western Airways, Ltd., Calgary, and make a united bid for the trans-Canada air mail contract.

Arrangements have already been completed for financing the Dominion mail contract to the extent of \$1,000,000 if it is awarded, Capt. McCall announced.

The Great Western Airways will function as one company under the general management of Squadron Leader G. H. Tudhope, who is at present supervisor of airports and airways for the Dominion government. He has accepted this position with the new aviation merger.

Turner Valley Oil

Now Producing At A Rate Of Over 850,000 Barrels Annually

In April, 1923, the Turner Valley produced 84,904 barrels of crude naptha, and 14,503 barrels of crude oil, making a total of 769,207 barrels of oil and naptha during the month. This is at the rate of over 850,000 barrels annually compared with 481,000 in 1922. From the present rate of increase it seems likely that the Turner Valley will produce well over 1,000,000 barrels this year.

Time Has Tested It.—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and at that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

A man, as he manages himself, may die old at thirty or young at eighty.

Britain Likes Canadian Honey

Is Growing In Popularity Says Assistant Trade Commissioner

"Honey is fast becoming a staple food on the British breakfast table, and the Canadian product is enjoying a growing popularity," writes Lester S. Glass, assistant trade commissioner at Bristol, in an article in the "Commercial Intelligence Journal." While clover honey and orange blossom honey are well thought of and South American white honey enjoys a high place in the estimation of the buying public. The British statistics for the calendar years 1924 and 1927, show a total import of honey of 73,251 cwt. and 84,415 cwt., with a value of £201,962 and £221,007 respectively.

SKY TESTED

Your modern high-speed motor hums the tune of faster transportation. In speed, power and flexibility, the motors of the highway reflect the influence of the motors of the sky.

The oil that was "good enough" for the motor of 1925 is not good enough for the motor of 1929. Higher speeds, higher temperatures, higher compressions, have created more difficult lubricating problems and demand better oil.

Because Marvelube meets the high temperatures and high pressures of airplane operation it is the ideal lubricant for the modern automobile engine. Its rich lubricating properties are inherited from its base—Peruvian Crude.

On the highways as in the skyways, Marvelube gives you smooth performance, lessened depreciation and real operating economy.

There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."

—Mrs. Milton McMullen, Vanceus, Ontario.

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1793

Stony Plain and District.

IT PAYS TO PAY CASH.

Miss Esther Wolfe is leaving Saturday on a motor trip to Seattle and Portland.

Among the arrivals in Stony on Saturday were: Herb Ingram, Brudersheim; Gust Zech, Rosely; Max Stockleish, Marlboro; Leo Little, Saskatoon.

Departmental exams are on, this week, at the local school. Those in attendance from Blueberry school are: Misses Wendel, May June and Master Selden.

Monday next is a public holiday. All places of business in Stony Plain will be closed.

Attention is drawn to the adv. in another column, announcing a sale of 24 lots in the town of Stony Plain for arrears of taxes. Sale will be held in Town hall Sat. July 6.

United Church Notes.

Sunday June 30 will be a red-letter day in connection with the service at Holborn, when another special musical service will be held. The entire choir from Stony Plain is to sing. Mr and Mrs Sherwin will sing. There will also be a stringed orchestra under the direction of Mr G Barth.

At Spruce Grove the Ladies' Aid is building a kitchenette at the rear of the church which will be a great asset.

The attendance at all the services keeps up very well as the summer season proceeds: thanks to the loyalty of many people.

At Brightbank Miss Deams is returning, after an absence of some weeks, and will resume her Sunday school work which carried on in her absence.

Sporting Notes.

Tomahawk ball team played Duffield Sunday last, Duffield winning 14 o 8. Duffield is going to Evansburg next Sunday for a game; and go on to Tomahawk for a game there on the holiday.

The basketball games on Stony's Sports Day promises to be very interesting events with some close scores.

Edmonton Beach.

Commencing on Saturday next, June 29 and continuing over Sunday and Monday the biggest week-end in the history of Alberta is to be held at this Popular Summer Resort. Saturday there will be a baseball game and dance.

Sunday, there's a ball game; with a bonfire and concert. In the evening: finishing off with a midnight frolic commencing at 12.05.

On Monday (Dominion Day) Games commence at 11 in the morning, with basketball and baseball; and a big circus parade at 2.30 then the Beach grounds, with clowns giving away free gifts to children. Martini's Circus Midway will hold the everyone spell-bound.

The school winning the greatest number of points throughout the entire list of events will receive the Barrie Shield, to be contested for annually at Edmonton Beach. The winner will receive also \$10 in cash; 24 prize, \$6; 3rd prize \$3. All other schools taking active part and not winning a prize will receive \$1 worth of peanuts.

Mr G F Hunter, Principal of Bonnets School, Edmonton, will have charge of the Games. A prize of \$2 in cash goes to the boy or girl winning high score; 2d, \$1.

NOTICE!

Having dissolved partnership in the Blacksmithing business in Stony Plain with my partner, Rudolf Breitkreutz, notice is hereby given that I will not be responsible for any debts incurred after this date, June 3, 1929.

(Signed) JOHN B. MILLER.

Calendar.

- JUNE—
28—Three act Comedy by Warden Doo-Dads.
29—Big Week - End Attractions start today at Edmonton Beach.
JULY—
1—Sports Day at Stony Plain.
2—This is Weeds Week.
4—Town Council meets.
4—Dances at Holborn Hall.
5—Inga Councillors meet.
6—Sale of Stony Plain lands for arrears of taxes.
10—Spruce Grove's Annual Picnic
15—Closing date of 1928 Wheat Pool.

Spruce Grove News

Scout Master Gibson is taking up, on Saturday next, a squad of Boy Scouts to their camp at Lac la Poudre. Assistant Scout Master MacKean is going up with the bunch.

The local school house was well filled Sunday night with farmers interested in the eradication of noxious weeds, when a meeting for this purpose was held. Addresses were made by W J Stephens, of the Dept. of Agriculture, and others.

Rev John Wood, who has had charge of Winterburn United church, is leaving next week to take charge of a church in the Crow's Nest Pass.

Winterburn Community is holding its big annual celebration Monday next, July 1st, with a good list of sporting events. There will be a dance in the evening.

An accident is reported to have occurred Monday last, when a truck returning from the City drove past the barriers on the Baseline and came onto a grade where an outfit was working. In making a turn-around the truck slipped off the grade, injuring two horses.

Mr and Mrs H C Hagen celebrated their golden wedding last week.

Mr Edmund Pinchbeck has been appointed by Premier Brownlee as a member of the advisory board under the Old Age Pensions Act.

Mr Brennenstuhl, who has been running the local blacksmith shop for a number of years, has gone farming. He negotiated the trade of his shop with a farmer for the latter's farm at Glory Hills. On Tuesday evening friends in the village gave them a farewell party, at which a goodly crowd was present, and wished the couple prosperous times in their new location.

Mr and Mrs Sherwin will take part in the special musical program at the Holborn United service on Sunday next.

Presentation to Mrs. Mair.

It is reported the Wheat Pool has acquired the local U.G.G elevator, and the latter company has moved their agent, Mr W H Mair, to Bon Accord. Previous to her departure last week, Mrs Mair was the guest of honor at a reception given by local ladies at the homes of Miss Forbes and Mrs Sherwin, when she was made the recipient of a beautiful cake plate. Mrs McKean made the presentation in a charming address; when Mrs Mair made a suitable reply.

Closing 1928 Pool

Closing of the 1928 Wheat Pool has been set for July 15, which is the cut off date. All who have wheat to deliver should take it to the elevators before this date. This applies to deliveries on wagon load basis and car lots that are being billed.

Duffield Doings.

A clever capture was made on Saturday last by Officer Moss of a man who of late has been "taking things easy" in this district. Mr Tyrrol last week missed a bunch of tools from his outfit; and also tools were taken from the McDonald road outfit. Several other articles have been missing of late, but none of these were reported on until Friday. On investigation, it was found the same car tread marks were noticeable at each place where a robbery occurred. These tread marks were followed to a farm three miles north of Onaway, where the driver of the car was found and taken into custody, and later brought to Edmonton, where he appeared before Magistrate McLeod in Monday afternoon's court.

Carvel Clippings

A crew of Inland Revenue officers has been making life miserable for Hootchmakers in Carvel's manufacturing section and nearby districts. A seizure of illicit liquor is said to have been made at the farm of Dmetro Oarlock; an other on the farm of Chris Stevens; and still one more on a Blueberry farmer's home lot. The accused will come before an Edmonton magistrate.

While Mr Delorme was travelling the Detour route from his road near Carvel, on Friday last, he claims he was assaulted by two men and robbed of all his money. He was rolling a cigaret at the time, and it all happened so quickly he is unable to give a description of the men.

For Sale—Small 6-horse Range; only slightly used. Apply Sun Office. 64

Ford

Do You Know?--

That no automobile except Ford selling for less than \$1500.00 has triplex shatterproof glass windshield as standard equipment?

That the new Ford Car has 25 ball and roller bearings in the chassis?

That when the new Ford is travelling at 50 miles per hour, the revolutions per minute of the motor is only 2077?

That the new Ford stands out supreme in its field in mechanical design, specifications, equipment, quality, and precision workmanship?

A Trip Through Canada's Inland Ocean

1. View of Manitowish Island from aboard ship.
2. S.S. ASSINIBOIA passing through Sault Ste. Marie locks which connect Lakes Huron and Superior.
3. Deck scene on S.S. KEEWATON on Lake Superior.

The Great Lakes—Canada's inland ocean—opened to navigation last month, are just entering on their summer condition of offering one of the major attractions of the Dominion to tourists. Vistas of beautiful islands and frowning headlands present some of the most beautiful scenery on the North American continent, while the illusion of sea travel is given to passengers when for a full day at least nothing but water is visible from the ship. Canadian Pacific ships, traversing their waters weekly, supply every up-to-date comfort and facility to travellers and remarkable engineering works add to the list of sights and beauties which nature gives in profusion.

Often you say "some day I'll take an ocean voyage," but did you ever stop to think that next door to you is an inland ocean where for two glorious days aboard a Canadian Pacific ship you can enjoy your long-dreamed-of voyage? If you haven't, the chance lies open to you and you can take the delightful cruise across Huron's blue waters, through the lovely St. Mary's River and away over the broad

expanse of Lake Superior, the largest body of fresh water in the world.

You can take it as a trip in itself or you can take it as a break in your rail journey across the continent. It carries you from Port McNicoll to the Head of the Lakes at the Twin Cities. The great white ships of the Canadian Pacific speed along with all the swift grace of gulls that circle and dip at the mast heads or perch and flutter above the deck rails. Perfection of service adds a last pleasing touch to the meals, the comfort of the staterooms and the social affairs on deck and below.

Since the level of Lake Superior is 21 feet higher than that of Lake Huron the Sault Ste. Marie locks has been constructed and the Canadian Ship Car 1 to join up the two lakes. This remarkable engineering work is one of the sights of the voyage. These fine ships make the trip weekly for the Canadian Pacific, the "Keewatin," "Assiniboia," and "Manitoa," two from Port McNicoll and one from Owen Sound, with the same number of eastward sailings from a Twin Cities.
